The Courses will be greatly improved during the ensuing yar. It will furnish all the local news, notices of meetings, assessments, tax and other sales, markets, etc., etc., giving information that every resident of this county ought to have, and cannot deprive himself of, without being likely to lose many times the cost of the paper. The Village, Farm, Town and County Talk ou subjects of local interest, will be supplied fully in our columns, hesides much interesting reading. All this can be had at searcely 4 cents a week, or aly \$2 for the entire year!

And Better Still. Almost everybody knows the high value of the American Agriculturist a journal that has just completed its 37th successful year. It is a large, beautiful journal, full of plain, practical, reliable, most useful information, for every man, woman and child. It prints every year 700 to 800 original eugravings of labor-saving, labor-helping contrivances, many of them home-made; also of animals, plants, construction of buildings, etc., elc. The American Agriculturist also constantly publishes exposures of the various humbugs and swindlers that prey upon the people with their artful schemes. These exposures save tens of thousands of dollars to its readers every year.
With all its splendid features, and an

for only \$1.50 cach year.

We are happy to announce that we have made arrangements to furnish to cash subscribers, BOTH the Counter and the American Agriculturist, ifor the small sum of only \$2.65 a year, both post-paid, which is but a trifle over five cents a week. Who will not smoke one cigar'less a week, or save five cents from some other needless expenditure, if necessary, to constantly supply himself and family with both of these journals? Remember, only \$2.65 pays for the Courses and the American Agriculturist, both sent post paid for a whole year. Please tell your neighbors of this. its 38th annual volume, and now is the

time to subscribe. And Still Better. The publishers of the American Agriculturist have secured Marshall's new, large, magnificent Steel Plate, "The FARRER'S PRIDE," one of the finest, works of this great artist, whose pictures of Washington and Lincoln are of world wide repu-tation. So fine is this new work that Mr. Marshall received \$3,000 for engraving New Machinery, the steel plate alone. It was so highly valued that thirty good judges subscribed \$25 each for 30 copies of the first or artist

proofs, and no copy of the picture can be bought for less than \$5.00. But the publishers of the American Agriculturist, have just secured the Plate, and having large facilities for multiplying it, they propose to present this Splendid Engraving, on fine Plate paper, (22x28), delivered post paid, to every anbscriber for volume 38 of that Journal, who sends 20 cents extra to cover cost of packing, mailing, and postage on the engraving.

Therefore Subscribers can secure, through this office the Courter and the American Agriculturist both post-paid for one year; and also (delivered free) a copy of the above-named Steel Plate Engraving that will be a great adornment to every home ALE THREE for only \$2.85.

THE LATEST INVESTION IN USE-TUL HOUSEHOLD ARTICLES. Within the last few years there has been expended a great deal of inventive thought and genius upon what may properly be classed as household articles, tho most noted results of which are the production of the sewing machine, the wring-

er, the washing machine, the carpet sweeper, &c. Almost every week we chronicle the advent of some new invention by which the cares and labors of housekeepers are lessenod, and woman's work made easier.

work made easier.

The newest thing to challenge our attention and gladden the heart of the housekeeper, is, what is called the Novel ty Brush Holder, Carpet Stretcher and Sweeper, a very simple contrivance designed to firmly hold in position any kind of a brush or duster; having an extension handle that enables one to wash or dust mindows, walls or callings without dust windows, walls or ceilings without the aid of a step ladder. That is one of its conveniences, and it is also one of the best carpet sweepers in the market, holding the brush firmly at an anglo. It cleans the carpet thoroughly, raises no dust, and does not wear the carpet like the ordinary broom or brush, and will outwear a half dozen brooms. As a handle for the serubbing brush it is the best device ever made, no more kneeling on Letter Heads, its cost, as a carpet of any size can be laid evenly without any of the labor and vexation usually attending such work. It is strong, simple, thoroughly made, cannot get out of order, has no ecrewe, lever or hinges, is compact, cheap and

durable.

It is manufactured by Brown & Co., Cinciunati, the well known manufacturers of useful household articles, and is sold only by their agents to housekeepers. The real utility of this article will at oneo be seen by those most interested, and we predict for it a large sale. Every housekeeper in the land will want one.

Any reliable lady or gentleman wishing remunerative employment, would do well to secure the agency for this county, which can be done by enclosing a stamp for descriptive circular and terms, to
